

THE NAVAL BATTLE.

LOCAL AND GENERAL.

STRANGE CASES IN CAIRO.

NEW MUSIC HALL FOR ALEXANDRIA.

NOTES FROM CYPRUS.

DE VERE TRUST.

THE MODERN NELSON.

RUSSIAN EXPLOITS.

Tokio, June 2. On the opening of the battle of Tsushima, signalled—“The destiny of our Empire depends on this battle, and the country hopes that you will all do your utmost.” (Reuter.)

St. Petersburg, June 2. The captain of the “Zemrud” reports 10 casualties. After escaping from the disaster he was rescued by a Russian ship. The captain of the “Zemrud” reports 10 casualties. After escaping from the disaster he was rescued by a Russian ship. The captain of the “Zemrud” reports 10 casualties. After escaping from the disaster he was rescued by a Russian ship.

Tokio, June 2. The sinking of the Russian cruiser “Zemrud” is confirmed. (Reuter.)

A JAPANESE INVASION.

POPULARLY DISCUSSED IN RUSSIA. St. Petersburg, June 2. The possibility of a Japanese bombardment and invasion of the Baltic sea ports is popularly discussed in Russia. (Reuter.)

ANGLO-JAPANESE AGREEMENT.

SPEECH BY LORD LANSDOWNE.

LONDON, June 2. At a Conservative dinner at the Holborn Restaurant, Lord Lansdowne, referring to the Anglo-Japanese Agreement, said that at no time on either side had there been any question whatever of withdrawal from the alliance. It is our opinion that, when the time comes when we must consider the renewal of the agreement, the only practical question is whether we should not seek some means of understanding with Russia. The alliance has been a potent instrument for maintaining peace, and it is possible to say that it would prevent the spread of a contagion when it has begun, but prevent the contagion from breaking out, all true peace would be maintained.

There has never been a moment when our relations with France were upon a firmer basis, but at the same time of the anxious moments, they passed by ever written, it would show that our understanding with France has greatly mitigated the friction and trouble inevitable when a great war is still in progress. Our alliance with Japan and our agreement with France are alike with no selfish or aggressive purpose in view. Our sole object has been to ensure peace and restrict the evils of war. (Reuter.)

PEACE OVERTURES.

PRESIDENT ROOSEVELT'S OFFER OF SERVICES.

WASHINGTON, June 3. Count Cassini called on President Roosevelt yesterday. The President, in his own words, a peace of Russia, that she would seek to conclude peace with Japan in response to the wish of the entire civilized world. The President, in his own words, a peace of Russia, that she would seek to conclude peace with Japan in response to the wish of the entire civilized world. The President, in his own words, a peace of Russia, that she would seek to conclude peace with Japan in response to the wish of the entire civilized world.

LONDON, June 3. The “Standard” learns from Washington that the American Ambassador at St. Petersburg has been instructed to communicate President Roosevelt's conception of the position of Japan, namely that an indirect proposition for peace would be acceptable, and the slightest opening in that direction would be utilized. The “Daily Chronicle” states that the President Roosevelt has communicated to Count Cassini information received from the Japanese relative to Japan's feelings regarding the situation. (Reuter.)

PARIS BOMB OUTRAGE.

SUSPECTED AUTHOR ARRESTED.

PARIS, June 2. The supposed author of the attempt on King Alfonso's life is Ferras, a Spaniard. The police have arrested another Spaniard, Vallina, and stated that he had been preparing the attempt for a month. (Reuter.)

BOMB OUTRAGE AT BARCELONA.

BARCELONA, June 2. A bomb exploded at the military governor's residence, causing serious damage. Arrests have been made. (Reuter.)

WHITBY ELECTION.

LONDON, June 2. Mr. Buxton, Liberal, has been elected by 547 votes against Major Beckett. (Reuter.)

GOVERNOR OF GIBRALTAR RESIGNS.

LONDON, June 2. The War Office announces that Lieut. General Sir M. Nicholson has been permitted to retire, and to resign the appointment of Governor of Gibraltar. (Reuter.)

QUARANTINE AGAINST ARRIVALS FROM LEITH IN EGYPTIAN PORTS HAS BEEN REMOVED.

THE PLAGUE.—Yesterday's bulletin records two cases (one fatal) and a death in hospital at Damietta.

ASSISTANT MOUTRIER.—In the Budget for 1906 a sum of L.E. 4,000 is to be allotted for completing the Moudirieh building at Assiut.

BOYFISH ESTATES, LTD.—This company has now received notice from the President of the Stock Brokers' Association of Alexandria that an official quotation has been granted for the company's shares.

AN ASYLUM CASE.—The Greek Consul-General at Cairo is enquiring into the alleged sequestration of Mr. J. Valenzuela in Abbassieh Lunatic Asylum. He is a Greek notable of Beni-Suef and has a fortune of £10,000. (Reuter.)

THE RHINE SCANDAL.—The Assistant Court of Instance will sit to-morrow to try the accused officials, Hassan Bey Tahsi, Moudir of Ghibreh and the Judge of the Takia Moudir of Sidi Barrani, who were charged with being accused of having committed the Rifa' affair.

COAL IMPORTS.—From Jan. 1 to June 1 the imports of coal into Egypt amounted to 361,183 tons, of which Wales sent 210,966 tons, Norway 69,428, Scotland 55,929, York 26,221, and other districts 15,243 tons. During the corresponding period of 1904 the imports were 416,405 tons.

EPITAPHIC AT LIVERPOOL.—The well-known Egyptologist, Mr. John Gardner, reader in Egyptology at the University of Liverpool, will be unable to deliver a full course of lectures during the summer term, 1905. A public lecture will be delivered this month on his return from Egypt.

SAL DEATH.—A Greek boy of ten years met his death under painful circumstances yesterday. He was playing on the staircase of his parents' house with a pair of scissors in his hand, when he stumbled and fell, the scissors entering his left ear and passing almost right through his head. He was at once removed to hospital, but expired on reaching it.

THE ORSOS COR.—The total shipments of onions from Alexandria up to date amount to 2,060,000 bags. This is the biggest crop ever known. Last year's shipments up to date were only 1,445,000 bags. The quantity of onions left in the country is still large, and so there is no further demand for export. Egypt will use the existing stock for its own consumption, and will have no need of taking any of the Syrian crops, which come in through the autumn and winter.

ALL SAINTS, CAIRO.—Dean and Mrs. Butcher are leaving Egypt for the summer on the 6th inst. Mrs. Butcher will not be “at home” to-day nor on any subsequent Saturday till further notice. The Rev. J. T. Burns will be staying at Church House from Saturday till Monday, every day. Notices for him, and letters, will be sent down to the Villa Ellen in Boula on other days in the week. They should however reach Church House before 11 a.m. The Sushra service will be discontinued until further notice.

ALHAMBRA THEATRE.—*Il Duciino (Le Petit Duc)* was produced last night before a large and fashionable audience, the performance meeting with great success. Signa Imbimbo was a sprightly and vivacious Duci, and was well supported by Signa Seves as the Duchess, while Signa Berardi as the tutor was very effective. The plot will be repeated to-morrow. *Il Venditor di Uccelli* will be given as a matinee, and in the evening a gala performance of *Alti Duci* will be given under the patronage of Baron Attoni, Italian Consul-General, on the occasion of the Festa dello Statuto.

SUEZ CANAL.—Sir Howard Vincent has given notice to ask the Chancellor of the Exchequer if his attention has been called to the declaration by May 22, of a dividend for the past year of nearly 26 per cent, free of taxes, on the investment of £4,000,000 in 1875, and, if so, whether he will consider the desirability of refunding to British tonnage passing through the canal last year some proportion, say, 5 or 10 per cent, of the dividend, having regard to the charges it had to meet to earn such an income for the company.

POLICEMAN SHOTS AT ITALIAN.—A most unfortunate and serious affair took place yesterday evening in Sisters-street, Alexandria, in which a member of the Alexandria City Police (an Italian) was seriously implicated. While in plain clothes he had a discussion with a compatriot in a drinking place in the street. The subject of the discussion is believed to have been the investment of the Italian in the growing more and more used mail from words they came to blows. The policeman drew a loaded revolver and held it at his comrade's head, and, getting into a free, he emptied the contents of two of the chambers into the man's body, who fell writhing to the floor. The injured man was at once conveyed to the Hospital, and it is stated that he will be expelled from the police force.

ALLEGED VACCINATION SCANDAL.

Considerable sensation has occurred in Cairo owing to the report that two deaths have taken place in the Capital within the last few days as the result of vaccination.

The German Consulate has opened an enquiry into the circumstances attending the death of Mr. Heinrich Klein, a young German who died at one of the Cairo Hospitals on Thursday evening after an illness of some days, which is alleged to have been occasioned by some vaccine given him by a local medical man.

A Cairo correspondent remarked yesterday—A terrible emotion reigns in the city. A serious case of death has occurred as the result of vaccination. On dit—nos reproductions se brisent sous toutes réserves—que les instruments qui ont servi à l'opération n'auraient pas été suffisamment stérilisés. Serait-ce une déviation, deux ont une issue fatale.

It is sincerely to be hoped that a satisfactory explanation of the case will be discovered, as, if it is found that the deaths are due to the reason given above, a serious setback might be given to the progress of vaccination in Egypt. During last year 408,981 successful vaccinations were performed, as compared with 408,858 in 1903. It would be a great pity if such costly progress in vaccinating were checked owing to the alarm arising from the fatality in Cairo. The importance of vaccination in Egypt is very great, and we may mention that, out of 185 cases of small-pox which were reported in Cairo last year, one-half occurred amongst the European population, more especially amongst the tourists. The large number of cases amongst Europeans appears to be due to want of vaccination on their part. Many of the Greek patients were treated at the hospital for infectious diseases, and it is reported that those who contracted the disease severely and died had never been vaccinated.

The vaccine produced at the Cairo Vaccine Institute has up to now given very satisfactory results. There were not less than 4,155 cases of small-pox, of which 854 terminated fatally, in Egypt last year.

THE KHEDIVÉ.

The Regent has received a telegram informing him that H.H. the Khedive left Constantinople for Vienna yesterday afternoon.

On his voyage to Constantinople the Khedive called at Rhodes on the 26th May and embarked on board the S.S. “Amphitrite.” His eldest daughter, who has been staying on that island for some time, is said to be on the point of her marriage.

This Princess will probably return with her mother from Constantinople to Alexandria in the autumn.

THE POLICE SCHOOL.

A sum of L.E. 60,000 will be allowed for in the 1906 Budget for the construction of a barracks of a new police school. The present site of the school is at Boula. The institution holds an important place, for here cadet officers and non-commissioned officers are trained. An extra grant for this school, amounting to L.E. 1,894, was made in the Estimates for the current year, thus enabling 40 cadet officers and 160 cadet non-commissioned officers to be trained. This is six officers and 120 non-commissioned officers more than in 1904. A new building is much required. Plans and estimates are being prepared, but in view of the large demands for public buildings of all sorts, which are being pressed on the Government from every quarter, the new school cannot be begun for some months yet.

SPORT AND PLAY.

RACING.

Oaks Stakes. 1, Cherry; 2, Queen of the South; 3, Amie. (Reuter.)

BOULAC CRICKET TEAM.

Through the individual efforts of players Boulac have up to date been able to ward off defeat. The chief features during last month's cricket were the excellent batting performances of the Rev. J. T. Burns, Mr. W. B. Davies, J.D. Streeter, the fine bowling displays by Mr. W. B. Davies, J.D. Streeter, J. T. Burns, and J.D. Streeter. Boulac will not be what one would call first-class in England, but they are precious near it, in the folding department.

On the 28th April Boulac v. Detachment of K.R. Rifles. Won by 1 in 5 runs. W.B. Davies 13 not out.

On the 1st May (Shen-el-Nessim) Boulac played a day's match with the Bands of the Inniskillings, and the former team won handsomely by 1 in 158 runs. J.D. Streeter 77 and Rev. J.T. Burns 50.

On the 15th May Boulac v. Staff and Depts. Won by 24 runs. W.B. Davies 18 runs. R. Appleby 4 w. for 5 runs.

On the 26th May Boulac v. Band K.R. Rifles. Boulac won by 7 w. and 97 runs. R. Appleby 10 w. for 10 runs.

In all Boulac have played 7 matches; won 5, drawn 2, lost 0, up to date. The first batsman and bowler on the list are as underwritten.

Rev. J.T. Burns 5 1 50 10 37.95
J.D. Streeter 4 0 77 103 35.75
W.B. Davies 2 1 85 101 35.95
Overs 304 5 53 14 31.14
W. Greenhalgh 304 5 53 14 31.14
Rev. J.T. Burns 215 6 36 9 4
Rev. J.T. Burns 6 9 12 5.67

ALEXANDRIA IS AT LAST WITHIN MEASURABLE DISTANCE OF POSSESSING A MUSIC-HALL WHICH WILL BE WORTHY OF THE CITY. WE SAY THIS IN NO DISPARAGEMENT OF THE ESTABLISHMENT, KNOWN AS THE ALHAMBRA, WHICH HAS BEEN CONDUCTED WITH REMARKABLE SUCCESS BY MR. CONGHIANO FOR SOME YEARS PAST. MR. CONGHIANO, HOWEVER, HAS HITHERTO LABOURED UNDER A GREAT DISADVANTAGE. THE PEOPLE OF THE CITY, WHOSE TASTE HAS BEEN A MOST UNSTAINING ONE, NOW AS WE ANNOUNCED YESTERDAY, THE PROPRIETOR OF THE ALHAMBRA HAS SIGNED A TEN-YEAR'S LEASE WITH THE OWNER OF THE GRAND M.G.R. ALDERSON, AND HIS TENURE IS SECURE AT LEAST FOR THAT PERIOD.

The result of this agreement is that a new music-hall is to be built on the plot of ground contiguous to the present Alhambra on the south side, which is now used as a garden. The theatre will be larger than the existing one, with attractive boxes and the additional feature of a gallery. It will be entirely constructed of iron, and will comprise every modern convenience, including the changes of scenery, and the fire. The plans have been prepared and are to be sent in a few days to England, where the theatre is to be built and sent out here to be put together.

HUTCHINSON NURSING HOME.

Our Cairo Correspondent writes—Cairo—Unlike Alexandria, cannot complain of a want of Nursing Home, for there are no three such institutions in Cairo, the latest being the Hutchinson Nursing Home, which was opened about a fortnight ago and which have had an opportunity of visiting. This home will be a most useful addition to the medical cases, the room on the second floor being set apart for the former cases and those on the first floor for the latter. The tourist, too, who has come to Egypt for change and rest, and who is not actually ill, but feels himself unable to stand the bustle and racket of hotel life, will find the Hutchinson Nursing Home a most useful addition to the medical cases, the room on the second floor being set apart for the former cases and those on the first floor for the latter. The tourist, too, who has come to Egypt for change and rest, and who is not actually ill, but feels himself unable to stand the bustle and racket of hotel life, will find the Hutchinson Nursing Home a most useful addition to the medical cases, the room on the second floor being set apart for the former cases and those on the first floor for the latter. The tourist, too, who has come to Egypt for change and rest, and who is not actually ill, but feels himself unable to stand the bustle and racket of hotel life, will find the Hutchinson Nursing Home a most useful addition to the medical cases, the room on the second floor being set apart for the former cases and those on the first floor for the latter.
