THE RUSSIAN MASSACRES

INCITED BY GOVERNOR GENERAL

ODESA, September 26.
Governor-General Kaulbare has alarmed the
city by a remarkable speech encouraging the
messacre makers. In reply to a deputation
complaining that the "Union of the Russian
People" was mass-caing praceful citizens, Java
and Christians alike the General said that
the members of the Union were the Tars' best
sons whom the Government esteemed and
that the citizens were than punished for
tolerating revolutionaries in their midst. (R.)

PITH OF THE PRESS

The Condition of the Indian Ryots.

We cannot agree with Professor Beesley that the alleged improverishment of India is a question which could be adequated investigated by a Royal Commission, unless their diliberations were preceded by years of patient historical research. Bot, if only because of the nedarious uses to which popular ignorance is terrated by function or encorpolous agitators, we hold that the question deserves far more careful study than has vet been bestowed upon it. The require of such study, we are more earful study than has vet been bestowed upon it. The resultar of sich study, we are convinced, would show conclusively that British role, far frem havirg led to the improver-inhunch of Iudis, has arrested or largely reduced every one of the evils which were still draining her wealth even a hounded years ago. For it has given Iudis what I Iudis never knew before—safely against the increasions of predactory hordes from Central Asia, freedom from internal strife and turmoil, puright Judges, and an upright Administration, and, as a consequence of all this, reconity for life and property for every caste and race and creed, and has connowhere be traced in the records of her chriq-rest distory before we gave peace to her countless millions. ("Times.")

of her chequend history before we gave peace to bee countless millions. ("Times.")

The Seditions in Bengat.
It is the daty of the executive government to see that every section enjoys the liberty and protection to which all subjects of the British Crown are entitled. Hindus must not be allowed to provoke Mahomedans either by instit or threats of violence; must be given no excuse for taking the law into their own hands. The criminal procedure code is not elected to the provision of the provision of the provision of the provision in the provisions must be enforced. What, perhaps, is most important of all, people in Bogland must understand that importations made against the authorities in India, by a little group of retired Anglo Indian efficials who have the man base and first own to ventilete, carry with them their own to ventilete, carry with them their own calculation. Qu'ie enough harm has been done already by latting it be supposed in India that these gentlemes were elancating the public at home to believe in the honesty and loyalty of the National Congress. ("Standard.")

Party Courtesies.

The actume assertion has killed the gaule.

the National Congress. (Standard.)
Party Courtesles.
The antum seesion has killed the usual automn campaign. Liberal statemen are basied with fruitful administrative work, and ex. Ministers have apparently nothing better to do than to quarel over Mr. Ballour's past and to elamour for the MacDonnell latters. Our cast is timelable friendle and while Mr. ood is singularly friendly, and while Mr mood is singularly ricensy, and while Myndham makes graceful speeches holding up Mr. Glatistone as an example to youth, the rest of us are looking forward with a kindly welcome to Mr. Chamberlisin's reappearance aceful speeches holding up

n a platform. ("Tribune.")

on a platform. ("Tribone.")

Temptations of the Peerage.

In order to live and die numaried in the present day a nobleman must possess at once a heart (a damanat and a seblime contempt for pounds, shillings, and peace. In his youth he must withstand all the siress of the music hall and the Gailey stage. If he essayes them in asfety, it is only to encounter in his more mature years the will, assidily of the professional dealers, who move insidionaly in routine society and catch their prove unawares at polite society, and catch their pray unaways at the dinner table, in the drawing-room, at fashionable restaurants, or yachting in the So'ent. ('Truth".)

So'ent. ("Troth".)

Germany and South Africa.

We can only be grateful to the Secretary of State for War for pointing out that the apprehensions of nervous people regarding the concentration of German troops in Sroth Africa are baseler, for it is to be hoped that the otherance of this respected and reasonable man will make a deeper impression on those nervous minds than the most explicit declarations of the German Press. If we have hitherto refrained from retting forth very good reasons which would dispet the asxisty felt by Baglishmen of an excessively distrateful disposition, it is because we sid in it think that they affected any but the very nearrowest and naimportant any but the very narrowest and unimportant circle. ("Cologne Gazette").

circle. ("Cologne Garste").

Sir F. Lugard's Resignation.

The fact of Sir F. Lugard's resignation must inevitably direct attention to the various angestions which from time to time have been put forward with a view to securing greater continuation of the securing greater continuation of the securing greater continuation of our tropical possessions. Attention is being directed to the importance of securing continuity not merely in our Colonial policy as a whole, but in meeting the needs of individual Curw Colonies and Protectorates, which in their physical conditions and existing institutions demand infinite fluxibility and diversity of bandling." ("Morning Post.")

institutions demand infinite flexibility and diversity of handling. "(Morning Post.")

Yesterday we were told that skeins of wild geese were winging their way southwards, from which it is ermisted that the long Arctic winter has ret in early. This morning we have flower to the second of the second control of the second

MONEY AND SHARE MARKET

(FROM OUR FINANCIAL CORRESPONDENT)

London, September 21.

The Bank of England is res., in a stronger position than it was last week, for although the reserve has fallen very slightly, it is higher than at this time last year, and the larger portion of the Autumn demand has been satisfied. It is thought probable that larger portion of the Authum demand has been sati-field. It is thought probable that the gold coming forward from the various gold-fields, amounting to four millions per mooth, will supply most of the farther requirements, with some help from the Bank of France. The bold and novel step taken by the old lady of Thresdneedle Street of raising the price of gold bars to 78k/ld. (well above the outside masket, 77s i/11 4.) will have the effect of diverting the demand from her, and it is much more sensible than increasing the Bank rate, which unnecessarily disturbs other markets. Altegether, a cheerful view is taken of the money prospects. The direction thouses are allowing 3% for each aging 3% for "notice" money, and are charging 3% to 4% for short paper, and 4½% for three months' bills.

Silver.

Silver has sagged a little during the week but it is again firmer, with quotations same as last week, 31 2 spot and 31 2 two month

The Stock Markets.

In our last article we expressed the hop that this increased Bank rate would be effective in improving the monetary outlook, and the affording to the stock markets the support the so much need. Unfortuntely the past wee so much need. Unfortontely the past week has been even more hopeles, so far as investment basiness is concerned, than for some time past. Purther large withdrawals of gold from the Bank for America, Constantinople, and Egypt have kept the better-class stocks in a nervous state, and it is feared that another increase in the Bank rate will be necessary before a normal state of affirir can be realised. A very distributing feators also has been the rise in the Be lin Bank rate to 5%, which had an immediately depressing effect upon the gilt-edged and home railway markets. In connequence of these adverse if Bancer, the amount of business transacted on the Stock Exchange has been extremely slight, and prices all round above substantial declines. Yesterday and to-day being Jewish holiday, the House has had a decreted appearance, and the tone of markets is quiet in the extreme. Consols.

Consols.

Consols.

The giltedged market commenced with a show of firmness, but the further heavy drains on the Bank, and the increase in the rate of the Bank at Barlin proved too much for its equanimity, and all the stocks have fallen away, Consols now being no better than 85 ½.

Consols now being no better than 85 \(\frac{1}{2} \).

Foreign Bonds.
A satisatory fastore of the foreign market at the beginning of the week was the strength of Russian, the Fours at one time improving to 72\). Subsequently they were influenced by the depression in other sections, and relapsed, but they firmed up again yesterday, and close steady to night at 72, the snipt of the new loan at 11 diront. Japanese are fractionally weaker.

Home Ralls.

Horne Rails.

This section has bad seveveral causes for depression—though doubtless some dealers will asy that home rails can usually, in these days, succeed in being miserable without cause. Prist of all, dear money was a bear influence, then there was a strike in one of the departments of the Midland railway, and to complete the tale of misfortness came the terrible disaster on the Great Northern line at Grantham. The result has been a week in disease, and the terrible disaster on the men of the Sooth Express smash York Deferred dropped 2 points, closing 1½ down on the day. In several other caree losses of a full point were marked.

point were marked.

Americans.

The tone of American railway shares has been uncertain, and in the main quotations are below not point, and in the main quotations are the only point that have shown any booyaney, there being about 44 higher at 784. Baltimore and Ohio have sgained 24 at 1294, and Unions have lost 4 at 1944 on our last.

The market opened with a better tendency to day, Southern Pacifics being a good feature with a rise of nearly three dollars. These leave off to-night at 974.

with a rise of nearly three dollars. These leave off to night at \$74\$.

Egyptians.

There is hardly any business doing in the Egyptian section, and as the markets in Egypt are closed until Monday three is not likely to be much revival until next week. National Banks are better at 264½. but Agricultural Banks are unchanged at 94½. The Debentures of the latter are 992/3 \$0.0000 that Agricultural Banks are unchanged at 94½. The Debentures of the latter are 992/3 \$0.0000 and the strong buyers at 9 premium. Dark close about the same at 164, and the Deferred at 100. Dairs Bugsr are unchanged at 2½. Delta Lund and Investment, after being 34%, close better again at 7½, but Delta Preference Beser are unmentioned, being neminally 11½%, while the Deferred are supposed to be 10.13. Egyptian Estates close 1½, and Egyptian Markets 1½. Salt and Sods have been offered at 1½ without response. Khrdivial Mail Ordinary have changed hands as high as 36%. 36. Advastains Banks are quoted 1½ direcomt, and Union Poncises are unchanged at 10½. Mining.
